The new truck recently purchased for the A. A. Young, Jr., Hose and Ladder company was equipped Friday with a traffic alarm siren, regulation Manhattan style. It is the rotary crank battery and supercedes the bell. When heard for the first time, one imagines the Aquitania is clearing from the Hoboken docks for her trip across, and she has some strenuous work.

Members have been furnished with a copy of the provisions of the adjusted compensation bill which, if it becomes a law, will give each world war veteran the right to avail himself of any one of five options which will be offered by the government. There are close to 100 service boys in this town. Many have found it interesting to talk with the boys and note the diversity of viewpoints as the options are discussed. The first three and the most favored with Jewett City boys and are outlined in the legion schedule as follows:

1. Adjusted service pay, at the rate of \$1 a day for home service and \$1.25 for foreign service. Maximum of \$500 for man without overseas service; \$550 for man with overseas service.

2. Adjusted service certificate (so-called insurance feature), a paid-up 25-year endowment policy. The face value of this policy will be 3.25 times the amount that would be received in cash. The face value of this policy would be payable to the nearest living relative at 24 years, or if he dies before the expiration of 20 years the face value would be paid to the beneficiary of the policy. Loans values also are provided.

A Lisbon hunter Thursday accomplished a feat that is reckoned in the not often list. He shot a sheldrake in the Quinebaug, down in the first bend below the town. He had been hunting foxes but the dog had bolted the trail on a deer track near Reads' and he was bound home. Coming upon the bent suddenly, four sheldrakes got up from under the bank at his feet. Their flight is slow and labored when first rising, so he "let 'em have." One was disabled and he got it in the eddy below. The second is yet to come. He took it home and dressed it with great care. Having heard that they were apt to be a trifle tough, he boiled it most of the forenoon. Vegetables were added and a fine crust was made. Following the tackle, he said he forgot to take the shell off, and that stewed boots were preferable. It is said they are hard to shoot and yet harder to eat. Many a good Jewett City man has given up the job in years gone by.
